

Early Help

At King-Edwards nursery we believe Early help is everyone's responsibility. Therefore, if you require support please talk to a member of our team who will be happy to help if they can, or they will direct your question or request for help to Sam or Sherie.

Early help means providing support to our children and families as soon as a problem emerges.

We understand just how complicated family life can be. From time to time, there may be situations where you need some extra help and support.

If things are not right at home, please come and talk to us, we can help in many ways.

Our aims are to work with families whose children are in our care. To focus on preventing problems before they occur and offer support when needed.

Successful Early help will help children by:

- Ensuring they are physically and emotionally healthy.
- Making sure they are ready to engage in play and learning.
- Are supported by their families, community and when necessary professionals in order to thrive.
- Ensure they live in safe environments.

Successful Early help will help parents and carers by:

- Supporting one another in the community
- Knowing how to access help if needed
- Have a trusted relationship with nursery and community projects.
- Are informed about how best to help their child develop.

Early years support

Our team is able to support families in many ways including:

- Toileting
- Routines
- Feeding
- Behaviour transition to school
- Partnerships with other agencies including the local children centre, speech and language and SEND support.

Staff are trained to be alert to any signs and symptoms which could indicate that a child needs early help.
